

## Special Appeal from our Chair : Rob Poleykett

### October 2016

We are now committed to building the Accommodation Block.

Just in case you have not looked at the drawings ...

And just in case you have not seen the photos showing present progress ...

As always costs outrun expectations.

We have enough to complete the building to a point where we can use it to house meditators, but there are many finishes that would be possible if we collected a little more.

These include outside glazing of passageways, covering the ground around the building with slabs or tarmac, fitting solar PV cells to the roof and ultimately an air source heating system.

To include these finishings we need £30,000. If we want to run on green energy it would be another £30,000 at least.

The reason for doing this all now is that it will come under the Zero Rated Value Added Tax, saving us 20%. Once the building is declared finished at the end of the contract with the builder sometime in January, we shall have to pay VAT on all the rest.

This Newsbyte goes out to over 600 people, if everyone could find £100, we would be able to complete the work entirely. If you can offer more, all the better. But whatever you give, no matter how small, will help us.

£100 is fair amount of money to give all at once, but over a three/four month period it amounts to £1 a day or less! And you can space your offering out monthly on PayPal.

Our PayPal account can be found on this page:

<http://www.satipanya.org.uk/donations/>

If you have a PayPal account, donate through that and it is easy to stop it. If not, email us when you wish to stop it and we will cancel the donation. Should you forget, we can repay the amount you did not wish to donate.

Or you can do much the same with Internet/Phone Banking. These are the details you will need:
